

Suggested Next Steps

November 2018

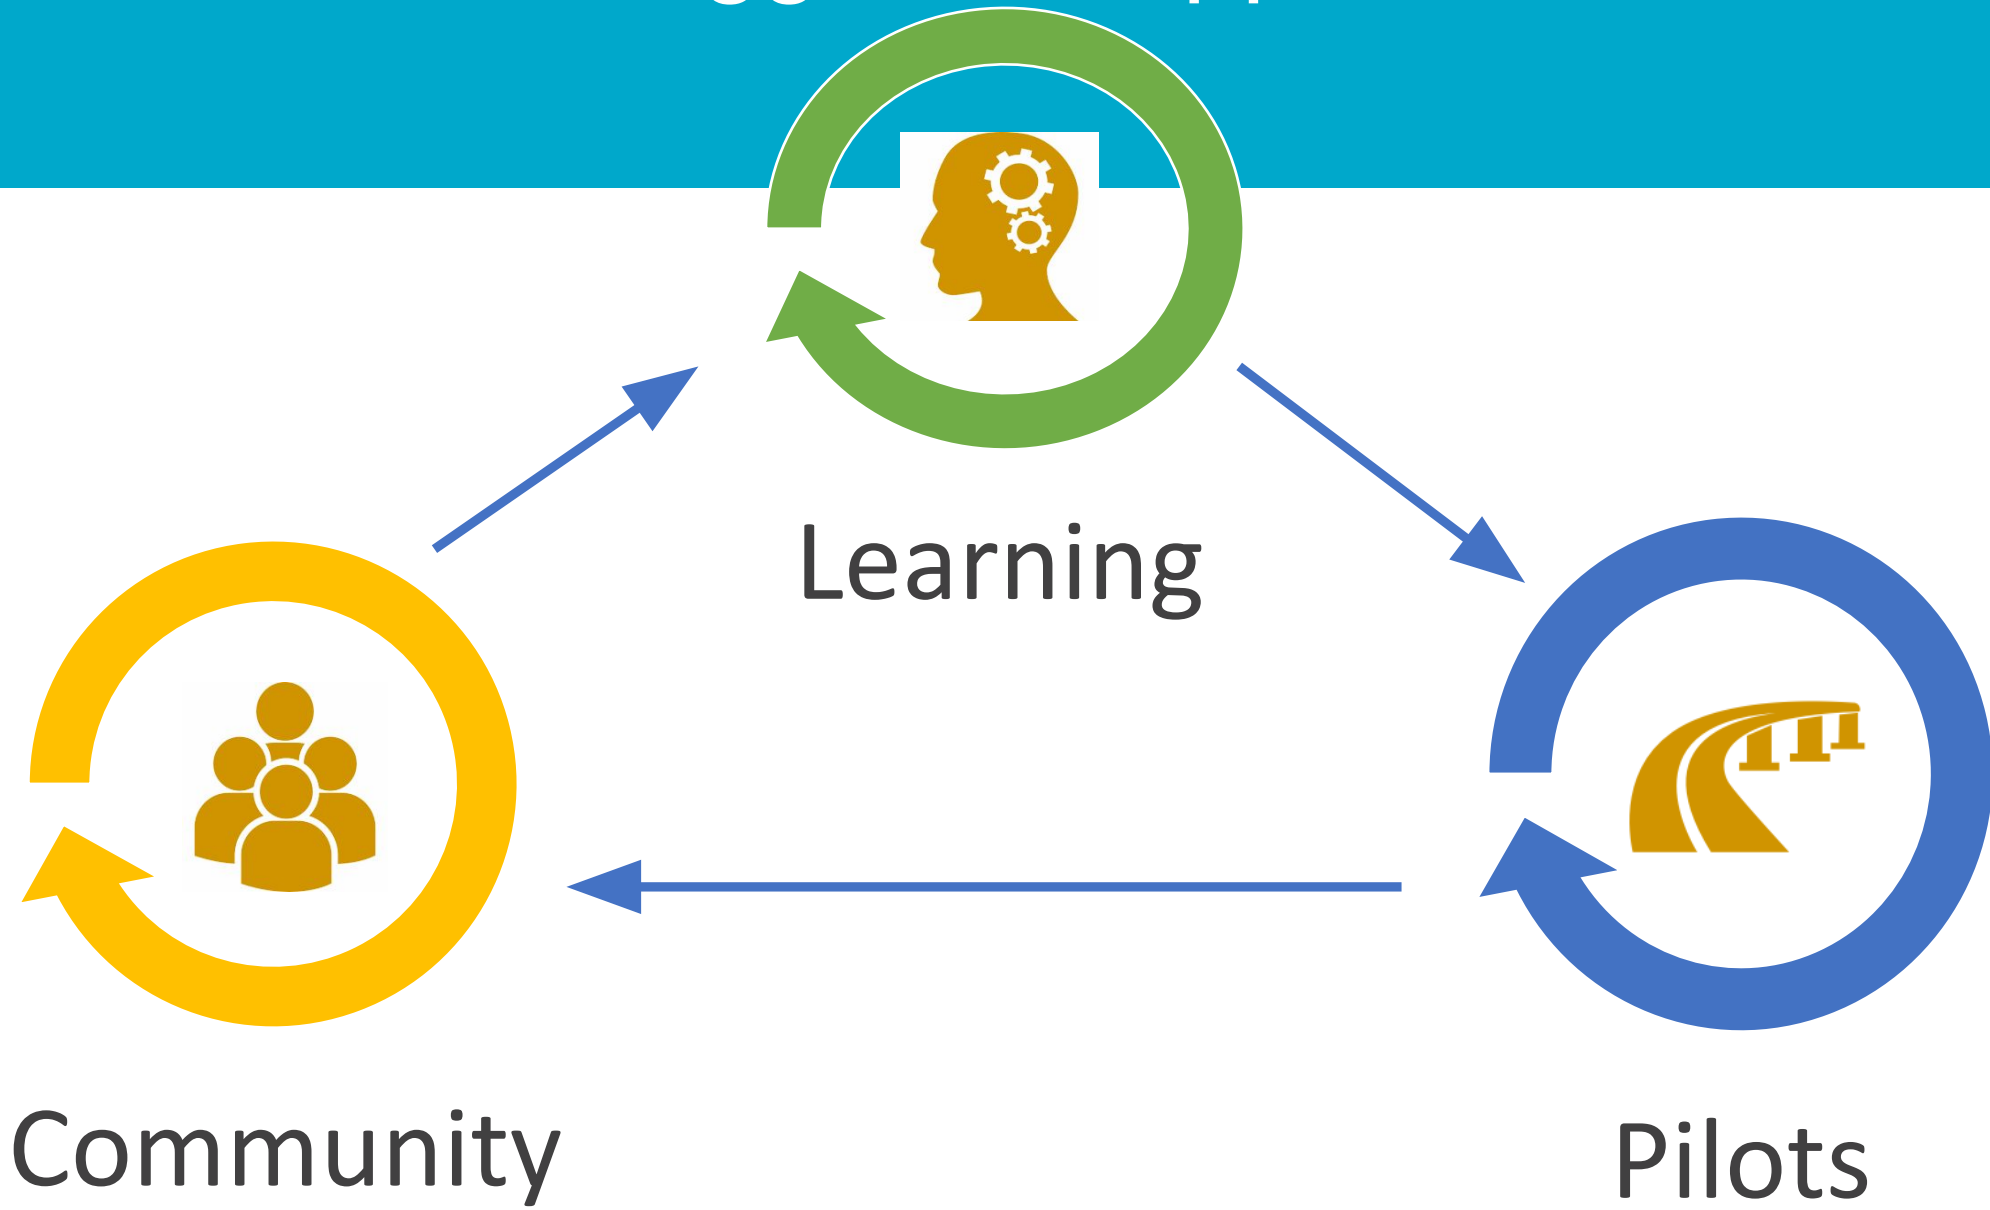

What have we heard?

**What is
Infrastructure
Sustainability?**

**What are some common
issues that face
infrastructure projects in
Rwanda?**

**What are some of the
solutions to these issues?**

A Suggested Approach

A Suggested Approach

**1. Infrastructure
Sustainability Training for
Professionals (IST4P)**

**2. 2 day training
course, technical
focus**

**3. Build knowledge and
capacity of scheme**

Learning

**5. Proxy case manager,
assessor**

**4. Key project delivery
personnel**

A Suggested Approach

1. What type of asset?

**2. What is its
delivery status?**

**3. Benchmark through
partial pilot**

5. Review performance

**4. Gain experience
through full pilot**

Pilots

A Suggested Approach

**1. Infrastructure
Sustainability Accredited
Professionals (ISAPs)**

**2. Global network
of Assessors**

3. Proxy case manager

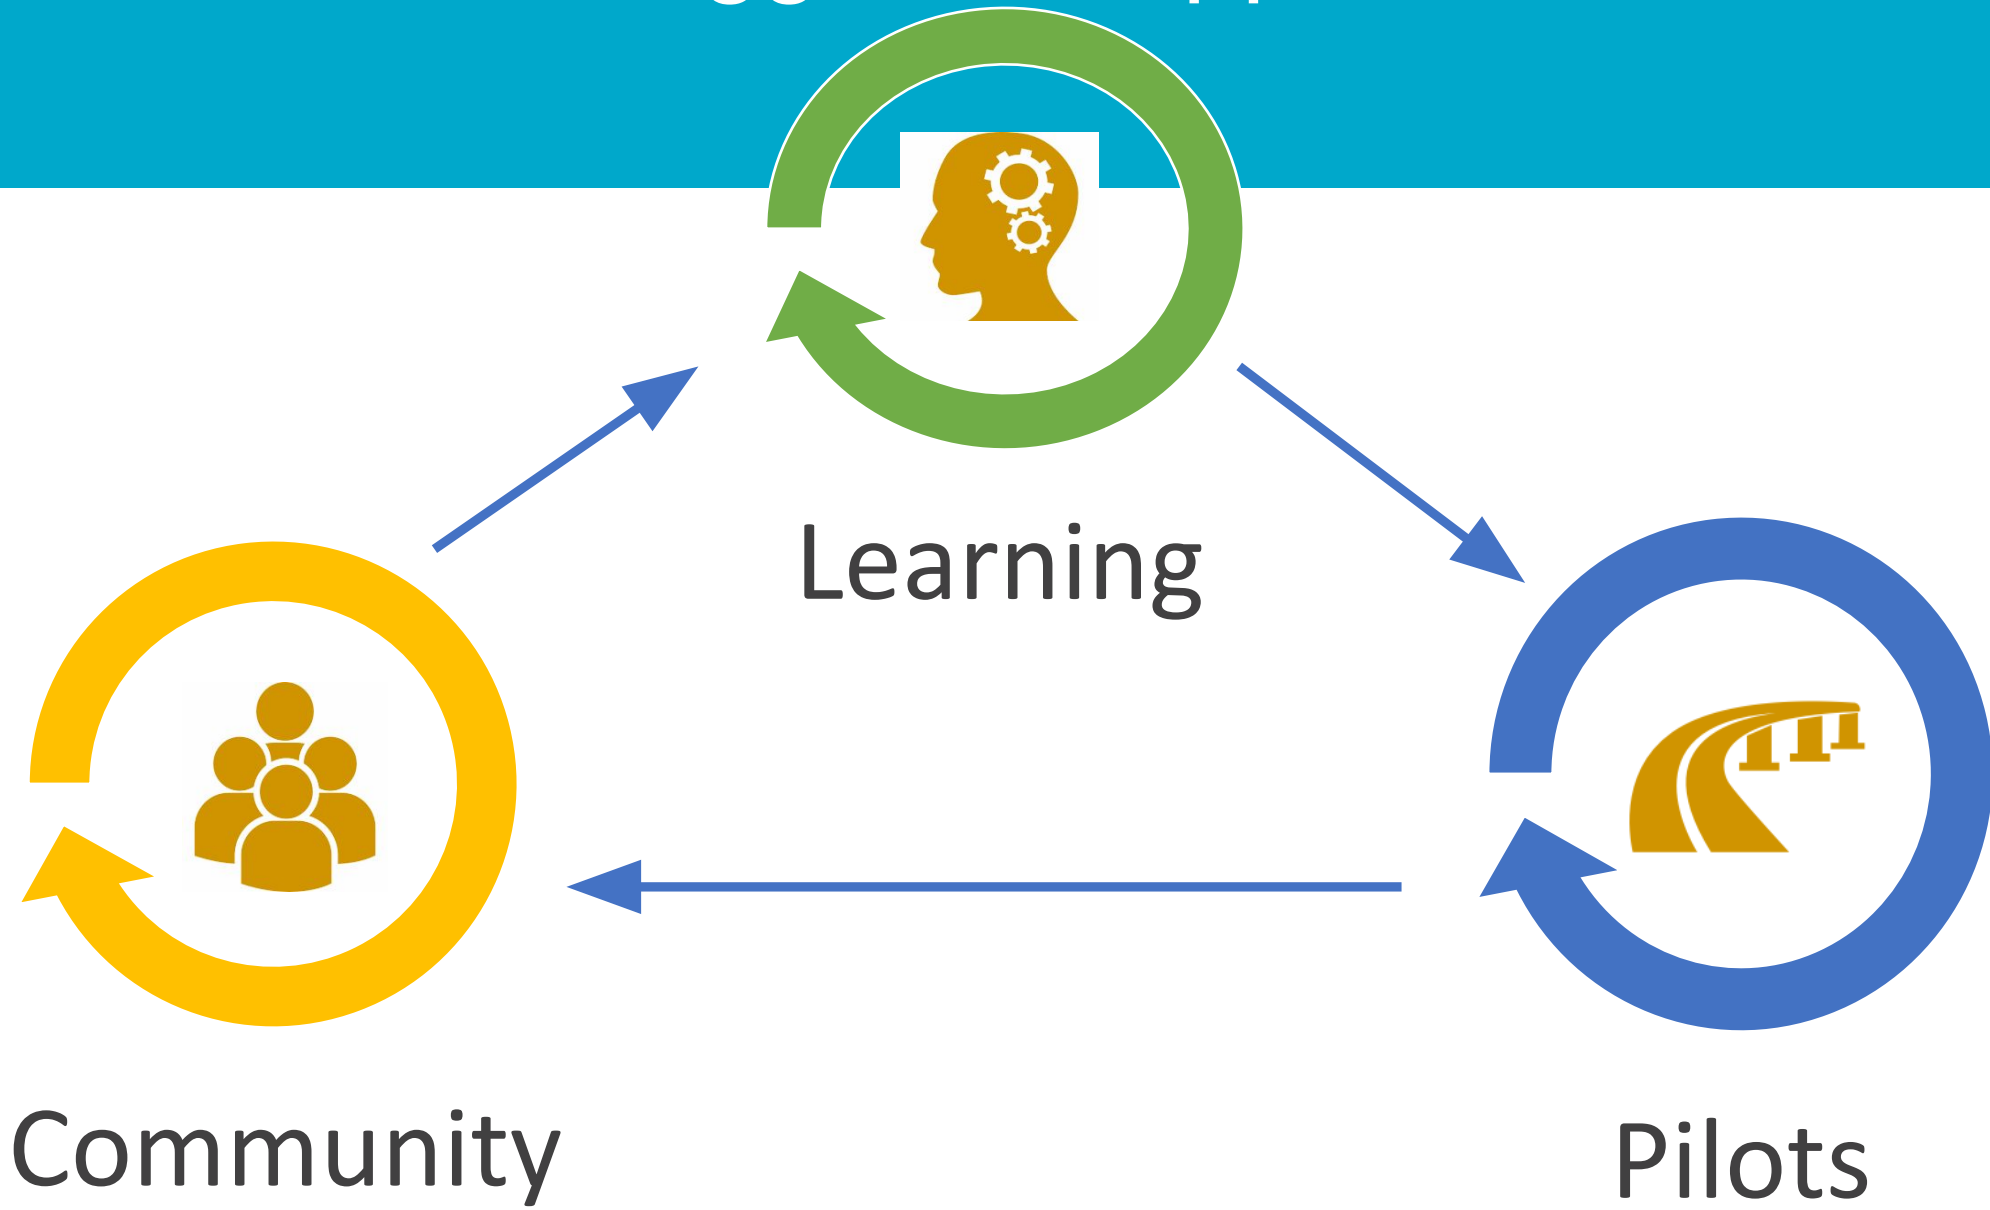

Community
